The figure consists of two circular diagrams, one for the left side ('Gauche') and one for the right side ('Droite'). Each diagram has a vertical axis on the left labeled from 0 to 40 (increasing downwards) and a horizontal axis on the top labeled from 0 to 90 (increasing from center to edge). The diagrams are overlaid with a grid of concentric circles and radial lines. Data points are categorized as follows:

- Perçus (Perceived):** Represented by green circles. In the 'Gauche' diagram, they are located at approximately (90, 10), (0, 30), and (30, 30). In the 'Droite' diagram, they are at approximately (90, 10), (45, 10), (0, 30), and (30, 30).
- Non perçus (Not perceived):** Represented by red triangles. No points are visible in this diagram.
- Non testés (Not tested):** Represented by open circles. These are distributed throughout the circular area in both diagrams, with a higher density in the central regions.

Vertical gauche : 60°

Horizontal droit : 140°

Horizontal gauche : 140°

Horizontal : 180°
