Gauche	✓	✓	✓	✓	✓	○	✓	✓	✓	✓	✓	✓

The figure consists of two polar plots side-by-side, labeled 'Gauche' (Left) and 'Droite' (Right). Both plots share a common vertical axis on the right side, ranging from 0 to 40 in increments of 10. The horizontal axis represents an angle from 0 to 90 degrees. The plots feature concentric circles at intervals of 10 units and radial lines every 10 degrees. Data points are categorized as follows: green circles for 'Perçus' (Perceived), red triangles for 'Non perçus' (Not perceived), and open circles for 'Non testés' (Not tested). In the 'Gauche' plot, 'Perçus' points are located at approximately (0, 30) and (30, 30), while 'Non perçus' points are at (0, 0) and (30, 0). In the 'Droite' plot, 'Perçus' points are at approximately (0, 30) and (30, 30), while 'Non perçus' points are at (0, 0) and (30, 0). The 'Non testés' points are distributed across the radial lines, mostly between 10 and 20 units from the center.
