The figure consists of two polar plots, one for 'Gauche' (left) and one for 'Droite' (right). Both plots have concentric circles representing magnitude from 0 to 40 in increments of 10, and radial lines representing angle from 0 to 90 degrees in increments of 10. The legend indicates three types of data points: green circles for 'Perçus' (perceived), red triangles for 'Non perçus' (not perceived), and open circles for 'Non testés' (not tested). In the 'Gauche' plot, 'Perçus' points are located at approximately (0, 30), (90, 10), and (270, 30). In the 'Droite' plot, 'Perçus' points are located at approximately (0, 30), (90, 10), and (270, 30). 'Non perçus' points are located at approximately (45, 10) in both plots. 'Non testés' points are distributed throughout the plots, mostly between 10 and 20 magnitude.

Vertical gauche : 60°

Horizontal gauche : 140°

Horizontal : 180°
